The HM1 Kiosk

information and specifications

Our newest advanced model with features unseen and unprecedented in digital small flatbed technology.

We have retained all the characteristics that made the original DTG Kiosk the world's 1st choice in digital direct garment printing. But have now added some very user friendly SMART features to enhance speed and print quality.

- 1 Auto ink suspension for white ink
- 2 Auto vibrating ink lines
- 3 Auto reflush cleaning cycles
- 4 Increased speed - up to four times faster
- 5 Registration perfect head moving technology
- 6 Auto rechip counters
- 7 Advanced firmware upgrades
- 8 8 colour Vibrancy
- 9 Inbuilt bulk ink system
- 10 Fan forced ink extraction
- 11 Head moving pin point registration
- 12 NEW on-board t-shirt pallets
- 13 More ink options

Perfect for textile direct printing and rigid surfaces the HM1 Kiosk sets a new standard in small flatbed printing technology. With an 8 colour Bulk ink system in built and Auto bed adjustment to a max 140mm. All with advanced Firmware options to provide the industries most reliable and print accurate solution.

Whether your printing textiles or rigid surfaces, the all new DTG HM1 Kiosk is loaded with features creating a perfect platform for your business.
